

SCHOOL PERFORMANCE REVIEW

SCHOOL MANAGEMENT COMMITTEE MEMBER, ETHIOPIA

School Performance Review is key to all Link's programmes. It measures individual school performance against common indicators of school success. SPR ensures accurate data is available to all stakeholders about their school's performance. The data is collected by school stakeholders and enables communities to tailor School Improvement Plans so that they can best meet each school's individual needs - and critically, allows them to make the best use of scarce school and district resources.
